

HOW TO DESIGN YOUR TINY LITTLE BUTTONS

RULES

1. **Less is more.** These buttons are Little and Tiny so don't try to cram a bunch of text or graphics. Keep it simple.
 2. Keep your important stuff inside the .875" inner circle.
 3. Use only CMYK. We won't accept RGB files.
 4. Create your files at 300 dpi. And, if you are using Adobe Illustrator, make sure you outline the fonts.
 5. We accept the following formats: PDF, AI, EPS, PSD. **Not .Jpg or .gif.**
-

1.313" DIA.
Bleed the edges

0.875" DIA
Make sure your
art fits in the dashed
circle
